Summary

Detail-oriented Full Stack Developer with expertise in Java, Angular, and Spring Boot. Passionate about creating efficient and user-friendly applications, I excel in both front-end and back-end development. I thrive in collaborative environments, believing that teamwork enhances creativity and leads to exceptional results. Committed to delivering high-quality software solutions, I continually seek opportunities to learn and improve my skills. Eager to contribute innovative ideas and leverage my technical expertise to drive successful development projects and make a meaningful impact.

Education

B Tech , CSE

Centurion University of Technology and Management • Paralakhemundi

09/2026

I am currently a 3rd-year student, where I am building a strong foundation in technology and development. My coursework and hands-on projects are preparing me with essential skills and knowledge in web development, software engineering, and modern programming practices, helping me advance toward my career goals in the tech industry.

Secondary Education, MPC

Mahindra Junior College • Pathapatnam

04/2022

I completed my studies at Mahindra Junior College, where I specialized in the MPC stream (Mathematics, Physics, and Chemistry)

Matriculation

UGHS • Machhumara

03/2020

I completed my 10th grade at UGHS, where I developed a strong academic foundation across various subjects.

Skills

Java, Python, Spring, Springboot, Mysql, Mongodb, Html, Css, JavaScript, Angular, Bootstrap, Postman, Git, Prompt, Painting

Experience

Web Development

OCTANET SERVICES PVT LTD

05/2024 - 08/2024

During my three-month internship at Octanet, I concentrated on front-end development, working to craft visually engaging and intuitive web applications. This role provided hands-on experience in designing responsive, user-friendly interfaces while enhancing my skills in HTML, CSS, and JavaScript. I gained practical knowledge in creating seamless user experiences and strengthened my ability to implement modern, attractive designs that align with best practices in web development.

Web Development

PRODEGY INFOTECH

05/2024 - 05/2024

During my one-month internship at Prodegy Infotech, I focused on web development, contributing to the creation of user-friendly web applications. This role enabled me to strengthen my coding skills and deepen my understanding of building engaging, accessible online experiences tailored to user needs.

web Development

CODSOFT

04/2024 - 05/2024

During my one-month internship at Codsoft, I contributed to web development projects, building streamlined and efficient web applications. This experience allowed me to enhance my coding skills and deepen my appreciation for user-centered design, reinforcing the importance of creating intuitive and accessible digital experiences.
